

CBN Powder

CBN powder is used for precise grinding, lapping, polishing and fine machining application, and also suitable for the manufacture of PCBN and abrasive paste etc.

There are two types of micron powder, SFCM-A (amber) and SFCM-B (black) available.

Size Available

GRAIN SIZE (μm)	40~50	36-54	30-40	22~36	20~30	16~22	15~25	10~20	10~15	8~16
